

**Project Design
Phase- I Solution
Architecture**

Date	02 November 2022
Team ID	PNT2022TMID29489
Project Name	Project – Real – Time Communication System Powered By AI For Specially Abled
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub- processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing businessproblems.
- Describe the structure, characteristics, behavior, and other aspects of the software to projectstakeholders.
- Define features, development phases, and solutionrequirements.
- Provide specifications according to which the solution is defined,managed, anddelivered.
